## "Landforms" Answer Key

VOLCANO

What kind of landform has a vent at the top,  
Spews lava and steam and pieces of rock?

CANYON

What kind of landform has very steep sides  
That were cut by a river's erosion and time?

WATERFALL

Going over this landform will make you shiver.  
It occurs when there's a sharp drop off in a river.

PLAINS

You get this landform when oceans run dry.  
They're broad, flat spaces stretching under the sky.

## "Landforms" Answer Key Cont'

MOUNTAIN

What kind of landform is the tallest of all  
With a spiky top where snow may fall?

RIVER

What kind of landform always runs downhill  
And can be used to turn turbines that power a mill?

CAVE

Landforms like this are often times found  
In the side of a mountain or as a hole in the ground.

OCEAN

What kind of landform is a huge chunk of water  
That takes up three-fourths of the Earth, and is salty?

VALLEY

This landform is found at the bottom of mountains  
And very tall hills; it's the low land between them.

ISLAND

To get to this landform, a boat you may ride  
Since water surrounds it on every side.

## "Landforms" Answer Key Cont'

DELTA

Triangle-shaped landforms like this often sit  
Near the ocean where a river finally runs into it.

PENINSULA

Which type of landform stretches into the tides;  
Surrounded by water on three of its sides?

LAKE

This large body of water is surrounded by land.  
It's a great place to fish or swim, if you can.

HILL

When the wind and the rain wear a mountain away,  
The mound that is left is this landform, they say.

CONTINENTS

Which type of landform is just one of seven?  
It's a really big place split up into nations.
