

Melody - Kate Earl

Intro / Verse

No matter what has ever come to me
I got my own brand of company
I got da da da inside my head
and i play songs back to back until i got to bed
Wake up by myself inside an empty room
Theres no body next to mine to oooh
But my skin is warm and my heart is full
Its the do do do do do do
Walking waking on a crowded street
With my headphones loud
So my hips can swing, so my head can nod
To the rock and roll to the boom boom beat

Chorus

And I find that I'm never alone
And I find that my heart is my home
And the music within makes me whole
A world that i built on my own
And I know that I'm never alone
And I know that my heart is my home
Every missing piece of me
I can find in a melody - I can find in a melody

Verse 2

No matter what has ever come to me
I got my own kind of company
I got ba ba ba inside my head
And I sing songs back to back until i go to bed
Theres a river in my mind thats never still
Swirling , soothing all the time gives me a thrill
Swimming in the notes that go
Oh oh oh oh oh oh oh
Wandering, waking in an empty world
It is quiet here, i am powerful
I look down below serenade the world - From inside my soul
